

Git 與 Github

TYIC 桃高資訊社

Git

Git 是個版本管理工具(Version Control System, 簡稱 VCS)

Git 是由 Linux 之父林納斯·托瓦茲(Linus Torvalds)開發

Git 的第一版 README(讀我) 中寫道：

 Git 的第一版 README

GIT - the stupid content tracker

"git" can mean anything, depending on your mood.

*- random three-letter combination that is pronounceable,
and not actually used by any common UNIX command.*

The fact that it is a mispronunciation of "get" may or may not be relevant.

- stupid. contemptible and despicable. simple. Take your pick from the dictionary of slang.

- "global information tracker": you're in a good mood, and it actually works for you.

Angels sing, and a light suddenly fills the room.

*- "goddamn idiotic truckload of sh*t": when it breaks*

This is a stupid (but extremely fast) directory content manager.

It doesn't do a whole lot, but what it _does_ do is track directory contents efficiently.

- Linus Torvalds
